Kurt,

I hope all is well. I wanted to reach out to let you know that Luke has traveled out to Seattle today to participate in a re-signing of our exclusive equity option term sheet with NWIW for their proposed Gas-to-Methanol facility in Kalama, Washington. Governor Inslee and Secretary of Commerce Brian Bonlender are expected to be in attendance for the event before everyone heads to the dinner this evening with the President of China. NWIW will likely also publish a press release after the ceremony which will name Stonepeak and our term sheet to provide the construction equity for the project once it reaches financial close.

Please give me a call if you have any questions. We wanted to make sure to keep you abreast of the project's developments.

Best,
Spencer
